

Math tutoring opportunity with Mrs. Rivera

Dear Parents,

My name is Lauren Rivera and I'm the computer resource teacher at St. Pius. I have taught middle school math for many years before joining the SPX family. This year, I will be offering math tutoring for students in the 5th-8th grades.

During a tutoring session, we will jointly work on homework, study for upcoming tests, and tackle note-taking and organization skills. My goal is to build your child's self-confidence and independence when working in the field of mathematics.

Rates are \$30/hour or \$25/half hour and you can sign up for as many time slots as you'd like per week. Choose the time slot(s) you'd like in 30 minute or hour long sessions. Tutoring will be offered during the following times beginning September 15:

Monday 3:15-4:15, 4:15-4:45

Tuesday 4:00-4:30

Thursday from 3:15-4:15, 4:15-4:45

If this is something you are interested in for your child, please fill out and return this flyer. I will contact you with final arrangements.

Student name: _____

Grade/Homeroom: _____

Day and time desired: _____

Parent name: _____
